Reference Letter

Our company asked Tomasz Trzoslo for an audit regarding our marketing branch, specifically Google ads and email marketing. After sharing current statistics from Google Analytics, Tomasz performed a thorough analysis and presented us with a detailed report. As our company is located in Canada, we held an online meeting, and he not only shared his findings but also presented us with information to help better our marketing strategy. His delivery was easy to understand and we feel as though he has helped us expand our understanding of cooperation with Digital Marketing companies. We cannot use Polish marketing agencies but we will be systematically referring to Tomasz' audit. We highly recommend cooperation with Tomasz.
